Title: **Specifications not yet under change control, but pertaining to frozen Releases**

Document for: **decision**

The specifications listed below relate to frozen Releases, but are not yet under change control. In some cases, this is justified by the fact that they are test specs which can be expected to lag some time behind the base functional specs. These “excused” specs are greyed. But for the remainder, the TSGs are requested to examine them with a view to taking one of the following courses of action:

- Bring the document under change control; or
- Move the document to a later Release (Rel-6); or
- Scrap the document.
