**Title:** Response to Liaison Statement from TSGS1 to the S2 QoS ad-hoc group

TSG S2 was pleased to receive the Liaison statement from TSG S1 (see attached). TSG S2 welcomes the opportunity to have a joint meeting with TSG S1 delegates to discuss the contents of TR 22.05 and TR 22.25.

In order to minimize travel it would be beneficial if the possible joint meeting could be held simultaneously with an already scheduled TSG S1 meeting or a TSG S1 QoS ad-hoc group meeting.

The following is the meeting schedule for the QoS Ad-hoc group. TSG S2 QoS Ad-hoc group will meet on the second day of TSG S2 meetings. TSG S2 is looking forward to receiving a proposal for a possible date/time/place for the above mentioned joint meeting.

**Title:** Liaison Statement to the TSGS2 ad-hoc group on QoS

**Document for:** Approval

---

TSGS1 has agreed on a Work Item on Quality of Service Requirements. In the WID is stated, e.g., that the work shall be done in a joint group with TSGS1 and TSGS2 QoS experts.

TSGS1 sees a need for a joint activity between TSGS1 and experts in the TSGS2 ad-hoc group on QoS, especially to

- consult the TSGS2 ad-hoc group on QoS regarding which UMTS bearer service parameters that are relevant for the required types of communication schemes, and to
- consult the TSGS2 ad-hoc group on QoS regarding any specific need, e.g., UMTS bearer service negotiation and re-negotiation.

TSGS1 therefore proposes that such a joint meeting, between the TSGS2 QoS ad-hoc group and participants from TSGS1, is called on this subject as soon as possible,.

TSGS1 would welcome any comments from the TSGS2 ad-hoc group on QoS on this proposal and, if received favourable, would welcome a proposal for a suitable date for such a joint meeting.

TS 22.05 and TR 22.25 are attached for information.
