Agenda: 6.1.5

TSG-SA Working Group 4 meeting #4
Munich, Germany, 20th – 22nd April 1999

S4 #4(99) 137

Source: S4

Title: LS to S1 on Tandem Free Operation, stage 1 service description

In the context of the WI “Tandem Free aspects for 3G and between 3G and 2G systems”, a stage 1 (Service Description, requirements) was derived from the corresponding document for GSM TFO.

This document is provided as an attachment to this LS. This is a first draft that will be completed since some 3G specific aspects should be added.

This document is provided to S1 for information and reviewing. If S1 feel that some important points are missing, can S1 let S4 know about them by their next meeting, i.e. from the 14th to the 16th of June.
