PT SMG CR cover form is available from: [http://docbox.etsi.org/tech-org/smg/Document/smg/tools/CR\\_form/crf28\\_1.zip](http://docbox.etsi.org/tech-org/smg/Document/smg/tools/CR_form/crf28_1.zip)

**Proposed change affects:** USIM  TE  Network   
(at least one should be marked with an X)

**Work item:** UMTS phasing and releases overview

**Source:** Fujitsu Europe Telcom **Date:** May 10, 1999

**Subject:** Changes to [scope and UMTS](#) chap 4 of 22.100 to reflect clearly the relationship between UMTS 22.100 and other 22.000 series of document.

<b>Category:</b> <small>(one category and one release only shall be marked with an X)</small>	F Correction	<input checked="" type="checkbox"/>	<b>Release:</b> Phase 2	<input type="checkbox"/>
	A Corresponds to a correction in an earlier release	<input type="checkbox"/>	Release 96	<input type="checkbox"/>
	B Addition of feature	<input type="checkbox"/>	Release 97	<input type="checkbox"/>
	C Functional modification of feature	<input type="checkbox"/>	Release 98	<input type="checkbox"/>
	D Editorial modification	<input type="checkbox"/>	UMTS 99	<input checked="" type="checkbox"/>

**Reason for change:** It is commonly understood within the SMG group the reasons for UMTS 22.100 and its relationship with other 22.000 series of document (e.g. 22.101, 22.105). With the new partnership group the common understanding may be lost as it has not been clearly stated in UMTS 22.100 or any of the other 22.000 series. This CR proposes an additional text in 22.100 to clarify this position.

**Clauses affected:** [Scope and Chapter](#) 4.0

---

# 1 Scope

The UMTS system will be defined in a phased approach. This document specifies the ~~content of the first phase of~~ requirements for Release '99 of UMTS. Some requirements ~~which are necessary affecting phase 1~~ to ensure a smooth transition to later releases are also indicated. However this document should be read in conjunction with the other 22.000 series documents which provide a complete description of the requirements for UMTS R'99 and beyond.

---

# 4 UMTS phasing and releases overview

The UMTS system will be defined in a phased approach. This specification addresses the UMTS phase 1 capabilities for release '99 and it provides pointers to other 22.xxx series which contain detailed requirements. RELEASE '99 and references detailed requirements that are contained in other 22.xxx series.

The UMTS phase 1 requirements can be met by the capabilities of GSM phase 2+ release 99 including specific enhancements for UMTS. Additional developments to fully meet the requirements for UMTS phase 1 standardisation are listed in this specification.
