Title: Liaison about railway communication system  
From: TTA PG905 (ITS/Vehicular ICT Project Group)  
To: 3GPP TSG-SA WG1  
Contact: [hsoh5@etri.re.kr](mailto:hsoh5@etri.re.kr); [sung.won@nokia.com](mailto:sung.won@nokia.com)  
Attachment: English version of Draft TTAI.KO-06.0407/R1 “LTE based Railway Communication System Requirements (Conventional and High Speed Railway)”

---

TTA PG905 notices ongoing study on Future Railway Mobile Communication System (FS\_FRMCS) in 3GPP TSG-SA WG1 targeting December 2016.

TTA PG905 has been working on the projects with respect to the railway communication system including “LTE based Railway Communication System Requirements (Conventional and High Speed Railway).” Throughout the project, some requirements are identified and these are captured in the attached document.

TTA PG905 kindly requests 3GPP TSG-SA WG1 to take the attached document into account for FS\_FRMCS and possible related future works.
