RE: LS to 3GPP2 TSG-AC on Optimised Handover from eHRPD to EUTRAN

Dear Erik:

3GPP2 TSG-AC WG2 has reviewed your LS on Optimised Handover from eHRPD to EUTRAN.

3GPP2 TSG-AC wishes to confirm that the eHRPD "Message X" included 3GPP TS 23.402 section 9.5.1 has never been implemented by 3GPP2. We further wish to confirm that as of this date, there are no plans to implement that message.

We agree that it would be correct to indicate in the 3GPP specifications that Optimised Handover from eHRPD to EUTRAN is not implemented in current specifications.

Please let us know if there are any further ways we can help in progressing your work in SA2.

Regards,

Edward G. Tiedemann, Jr.
Chair, 3GPP2 TSG-AC
