1 Overall description

3GPP TSG SA thanks ATIS for the LS correspondence regarding the LS sent to TSG SA and SA WG2 for review of the ATIS IoT Group whitepaper on IOT Categorisation.

3GPP TSG SA would like to inform ATIS IoT Group the preferred approach for the handling of the addition of a new SST value in 3GPP TS 23.501 is that ATIS first cooperates with GSMA 5GJA to define the related Standardised Network Slice Type (S-NEST) in PRD NG.116. Then 3GPP SA WG2 will allocate a new SST when GSMA requests SA WG2 to add a standardised SST value for this S-NEST following the normal working procedures (i.e. approval of necessary CRs).

2 Actions

To ATIS IoT Group

ACTION: 3GPP TSG SA would like to ask ATIS IoT Group to take the above information into account and is encouraged to start the necessary cooperation with GSMA.

To GSMA 5GJA

ACTION: 3GPP TSG SA would like to ask GSMA 5GJA to take the above into account.

3 Dates of next TSG SA meetings

TSG SA Meeting 88	17-19 June 2020	Malmo, Sweden
TSG SA Meeting 89	16-18 September 2020	Funchal, Portugal
