3GPP TSG-CN4#05 Meeting   **Tdoc N4-001082**
Paris, FRANCE
13th November – 17th November 2000

Title:	**LS on Security for MAP over IP**
Source:	**TSG CN WG4**
To:	**TSG SA WG3**

Contact Person:

Name:	**Ian Park**
E-mail Address:	**ian.park@vf.vodafone.co.uk**
Tel. Number:	+44 1635 673 527

1.   Introduction

CN WG4 thank SA WG3 for their liaison statement (S3-000364) on security for MAP over IP.

We note SA WG3's concerns over whether the addressing for the lower layers is hop by hop or end to end when MAP is transported over IP. Unfortunately, we have received no contributions in CN WG4 on the subject of MAP transport over IP. Study will be required before we are able to give a clear indication of whether addressing will be hop by hop or end to end; when that study has been carried out, we will inform SA WG3 of the result.
