1. Overall Description:

3GPP TSG-SA1 has received information that good progress has been made on developing a vision for the Generic User Profile work and a starting point for stage 1.

SA1 would like to thank the Joint Group for their excellent work on the first draft for the Stage 1 description on 3GPP Generic User Profile. The joint group has now achieved its goal of developing a co-ordinated vision for the Generic User Profile and SA1 believes that the work on delivering a completed Stage 1 for GUP is now best handled directly by SA1.

Therefore, SA1 now believes that the work on the Stage 1 should now be separated from the ongoing developing technical work and the rapporteur has agreed to provide the latest Stage 1 for review by SA1 at the next SA1 meeting.

Concerning the proposed joint meeting in Cancun, SA1 members do not believe that sufficient SA1 presence can be organised at this meeting and therefore request that the SA1 aspects be excluded from the meeting.

SA1 believes that the Joint GUP group can continue to be effective by generating the vision for the detailed technical work on GUP specifications and looks forward to further interaction once SA1 has further developed the Stage 1.

To 3GPP Generic User Profile joint group.

ACTION:

- The GUP adhoc is asked to focus on the non-SA1 aspects of GUP from now on.
- The GUP adhoc is asked to exclude the SA1 aspects from the Cancun meeting.
