3GPP SA3 LI thanks SA WG3 for approving and forwarding our document, TS 33.108, to SA for information.

SA3 LI is happy to report that we now have a section for IMS intercept in TS 33.108 and we will be working on the Circuit Switch portion of the document via email before our June meeting. We expect to have both the IMS and the CS sections of TS 33.108 complete by the end of our June 4-6 meeting. Our goal is to meet the Release 5 freeze date.

As you are aware, SA WG3 meets in May and again in July. Unfortunately, we will not have our CS section finished by May for approval of TS 33.108 at your 3GPPSA3#23 meeting. We therefore request permission from SA3 to deliver our document directly to 3GPPSA#16 for approval, for the inclusion of TS 33.108 in Release 5. We also request permission to deliver directly to SA any necessary CRs against 33.106 R5 and 33.107 R5 to SA to meet the June deadline for release 5.

Action:

Approval from SA3 to deliver 33.108 directly to SA#16 for Release 5.

Date of next SA3 LI Meeting:

04th – 06th June 2002   Budapest
