Meeting objectives:

- The major objective of this meeting is still to develop further those three TSs for which functional changes may need to be agreed: 33.220 (GBA), 33.234 (I-WLAN), 33.246 (MBMS)
- We also try to close remaining open issues and get rid of editor's notes in the other release 6 TSs and TRs. After the December SA plenary it is going to be significantly harder to get any CR's accepted.

Preliminary schedule of the meeting:

- We have tried to solve an outstanding MBMS download issue by using the early deadline. Therefore, it may be good to begin with MBMS issues in agenda item 6. Also, #34 meeting begun with I-WLAN and our last meeting #35 begun with GAA.
- Then, the planned milestones for each day of the meeting are as follows:
 - o Tuesday: completion of items 1-5 and technical items 6.20 (MBMS) and 6.21-6.24;
 - o Wednesday: items 6.1-6.8, then 6.9 (GAA) and 6.18 (Presence);
 - o Thursday: items 6.10-6.17 and 6.19;
 - o Friday: handling of output documents and agenda items 7-10.
- These milestones are based on the experience from previous meetings. The schedules have to be adjusted to the number of contributions submitted to each agenda item.
- Additional break-out sessions are probably arranged in some evenings.
