---

ITU-T Study Group 17 thanks OMA ARC SEC for its “Answer to Liaison Statement on IdM for mobile applications and environment (ls0183-17)”. We have discussed the provided list in the meeting. Question 10/17 on Identity Management decided that we need more time to investigate those provided OMA enablers.

For the time being, Q10/17 has progressed further on draft Recommendation ITU-T X.mob-id: Baseline capabilities and mechanisms of IdM for mobile applications and environment. The attached document is provided for your information or comment.
