Subject: Status Report of PTSC LAES SC Effort

Dear Brye, Rick, David, Parviz, Terri, Peter, Matt,

The ATIS Packet Technologies and Systems Committee (PTSC) (formerly known as T1S1) convened a session of its LAES SubCommittee on October 13, 14 and 15, 2004. At that session, it was reported that the electronic election of leadership for this recently formed SubCommittee (SC) had been completed and Messrs. Greg Ratta (Tridea Works, LLC) and Ron Ryan (Nortel Networks) were elected to serve as Chairman and Vice-Chairman, respectively.

It was noted that J-STD-025-B would undergo a second default ballot for approval as an American National Standard. No information was available as to when that ballot will be initiated.

During the October meeting, the following progress was made:

- Relative to LAES for Voice over Packet-mode technologies (T1.678, v2), several contributions were considered, notably concerning conferencing, call forwarding and call transfer services. The resulting baseline document is available at <ftp://ftp.t1.org/pub/T1S1/T1S1.0/2004/3s106840.doc>.
- Relative to LAES for IP Network Access, many contributions were considered, notably concerning further specification of triggering events, related specification of messages and parameters, and definitions of communications content and identifying information. The resulting baseline document is available at <ftp://ftp.t1.org/pub/T1S1/T1S1.0/2004/3s106850.doc>.

The report of the PTSC LAES SC meeting discussions may be found at <ftp://ftp.t1.org/pub/t1s1/t1s1.0/2004/3s106830.pdf>.

An interim conference call has been scheduled on November 23, 2004 to advance the state of specification in advance of the January 2005 meeting of PTSC. The terms of reference and registration information may be found in <ftp://ftp.t1.org/pub/t1s1/t1s1.0/2004/3s106800.doc>.

The next face-to-face meeting will be convened at the next PTSC meeting, during the week of January 17-21, 2005 in Clearwater, Florida. (The meeting venue details are available at <http://www.atis.org/0191/jan2005.asp>.) The agreed-upon start date and time for the LAES discussions is Tuesday, January 18, 2005 at 13:00 EST. Interested parties are advised that there is a possibility that the work may continue until 15:00 EST on January 20. The proposed agenda for that meeting is contained in <ftp://ftp.t1.org/pub/t1s1/t1s1.0/2004/3s106790.doc>.

Sincerely,

Bob Hall  
Chairman, PTSC
