Title: **Draft Reply to N1 on ACS and ICM**
(Active Codec Set and Initial Codec Mode for the Adaptive Multi Rate speech codec)

Contact Person: Karl.Hellwig@Eed.Ericsson.Se

S4 thanks N1 for the clear description of the problems regarding ACS and ICM for the AMR. S4 agrees with the proposed way forward.

Alternatively, S4 would also accept a solution where the ICM is not transferred to the MS and is simply removed from the 3G specifications, including the TS 26.103. For your information the ICM is not transmitted by the TFO Protocol.
