Thank you very much for sending us your final schedule for 2023 meetings and your draft schedule for 2024 meetings. The MPEG advisory and working groups of ISO/IEC JTC1 SC29 are meeting four times a year in order to progress their work. MPEG members are active in various organizations including 3GPP SA4. When scheduling meetings, we try to avoid scheduling conflicts. Since the hosting of an MPEG meeting requires facilities with more than 10 meeting rooms, additional constraints arise since there are relatively few facilities capable of hosting an MPEG meeting. Given these constraints, requiring an extra week between MPEG and SA4 meetings appears to be unfeasible.

The current MPEG meeting schedule is available at <https://www.mpeg.org/meetings/>. It typically gets updated one week after an MPEG meeting. Regarding the MPEG Sapporo meeting, the dates are confirmed.

For your information the MPEG schedule as of MPEG 141 is
