Re: MMS Future Requirements

Dear Mr. Weingarten

3GPP2 has received a correspondence from OMA MWG, dated 13 February 2004, regarding future MMS requirements.

The first action recommended in the correspondence was for members of 3GPP2 to contribute and participate in the capture of MMS requirements within OMA, after the transfer, to support future MMS network-independent functionality. We will recommend to our members to take this course of action.

Also, regarding your second recommended action, we welcome your decision to provide us with the status of the requirements. Furthermore, 3GPP2 expects that this document will be publicly available and that 3GPP2 and its members will provide feedback on the requirements document as necessary.

Sincerely,

Mr. Richard Robinson
Chair, 3GPP2 TSG-S
