**Title:**             **Specs status list prior to TSGs#24**

**Document for:**   **information**

The following table shows the status list immediately prior to TSGs#24. It differs from that corresponding to the end of SA#23 insofar as it contains new specs created since that time and later drafts of specs not yet under change control. It also reflects the updates resulting from GERAN#19 and virtual meeting CN#23bis.

Delegates may like to note that an HTML version of the status list is available at <http://www.3gpp.org/ftp/Specs/html-info/status-report.htm> and that this is updated daily to reflect

- new spec numbers issued for work starting up in Working Groups;
- new drafts of specs not yet under change control developed in Working Groups; and
- (occasional) editorial revisions of approved specs.
