1. Overall Description:

SA3 thank for SA2 for their Liaison on Enhancements of the Mt reference point. Though SA3 understand the functionalities of Proxy/Gateway described in their LS are beneficial, SA3 consider the security function that Proxy/Gateway could perform and whether TLS can be run and terminated in the Proxy/Gateway. There are several SA3 contributions that are related to this and further investigation will be performed. SA3 are happy to inform SA2 a conclusion when it is achieved.

2. Actions:

None.

3. Date of Next SA3 Meetings

SA3 #29	15 th July – 18 th July 2003	San Diego, U.S.A
SA2 #30	7 th October – 10 th October 2003	tbd
