

BUILDING GLOBAL COMMUNICATIONS

COMMITTEE CORRESPONDENCE

September 6, 2003

Mrs. Terri L. Brooks
Chair, TIA TR-45 LAES Ad Hoc
Nokia

via electronic mail

Mr. Valtteri Niemi
Chair, 3GPP SA3
valtteri.niemi@nokia.com

Dear Mr. Niemi,

On August 15th, TR-45 approved a recommendation from the TR-45 LAES Ad Hoc Group to send PN-4465-RV1 (to be published as J-STD-025-B) for ballot. The document has been distributed for ballot by both TIA and T1 (LB 1174), with due dates of September 25th and September 17th, respectively. The initial ballot response resolution meeting will be held at TIA Headquarters in Arlington, Virginia on September 29-30, 2003.

The TR-45 LAES Ad Hoc Group also forwarded two new project recommendations to TR-45 which were approved at the June TR-45 Committee meeting, and forwarded to T1 for their consideration as proposed joint projects. The projects, as approved by TR-45, are attached.

Please contact me (terri.brooks@nokia.com) with any questions.

Regards,

Terri L. Brooks
Chair, TIA TR-45 LAES Ad Hoc

cc: Mr. Ray Hapeman, Chair T1

New Project Request and Authorization Form

*** All sections of this form must be completed for submission to occur.**

Date:	Formulating Group Number:	Project Number:
<input type="text" value="6/5/03"/>	<input type="text"/>	<input type="text"/>

Working Project Title:

Type of Project: (select one of the following)

ANSI/TIA/EIA (ANSI PIN Form Required in addition to this form)

Create a New Standard

Adopt an IEC or ISO Standard

NON-ANSI (No ANSI PIN Form Required)

Create a Bulletin (TSB)

Formal Interpretation of

Input to Other Standards Bodies

Create a TIA Standard

<input type="text"/>	<input type="text"/>
----------------------	----------------------

Other Project (please describe):

Project Information:

Project Title (Working Title, if Standard or Publication):
Additional Capabilities for Lawfully Authorized Electronic Surveillance (LAES)

Scope and Justification for Project:
Produce a new TIA STD containing the messaging for support of additional LAES capabilities. Expected sources for contributions on these capabilities include, but are not limited to, distributed documents from Law Enforcement (e.g., Packet Surveillance Fundamental Needs Document (PSFND), Electronic Surveillance Needs for Carrier-Grade Voice over Packet Service (CGVoP)), previous ESTS contributions to the TR-45 LAES AdHoc Group, and carrier and vendor discussions with LEA (e.g., location tracking). Messages should be able to toggle on/off, as implementations of these capabilities are optional and to be provided upon request with negotiated terms. This STD assumes a J-STD-025 embedded architecture, messaging and protocol for communications surveillance. This standard is not being developed to meet the requirements of CALEA, and CALEA references are outside the scope.

*Additional Key Words (*not contained in the title or scope/summary/abstract*)

* **this information must be completed**

Law Enforcement Agency (LEA), Access Function, Delivery Function, Collection Function

Units of Measurement used in this document:

Metric [TIA Preference] US Both N/A

[Non-metric requires compliance with Section 4.8 of the TIA Style Manual]

List any U.S. TAGs and/or SDOs that will have an interest in this project:

(if no U.S. TAGS or SDO's have interest in this project, enter "none")

T1 Subcommittees, TR45 Subcommittees, DSL Forum Technical Committee, IETF, International Packet Communications Consortium, 3GPP (SA3 LI), GSM North America , 3GPP2, ETSI, Packet Cable/Society of Cable Telecommunications Engineers(SCTE), ATM Forum, Frame Relay Forum, Worldwide Technical Committee, Wireless Data Forum, 3G Americas, CDMA Development Group, NCTA, ITU-T, ITU-R, IEEE , ATIS, CTIA, TIA, USTA, PCIA, (list expected to expand as work progresses).

Estimated date ballot to be sent to Formulating Group:

June 2005

Estimated date for "camera-ready" copy to be forwarded to Standards Sectetariat for publication:

TBD

Project Information:

Project Title (Working Title, if Standard or Publication):
Lawfully Authorized Electronic Surveillance (LAES)
Proposed J-STD-025 Rev.C

Scope and Justification for Project:

This proposed revision is intended to include standard maintenance following J-STD-025-B implementation and possibly CALEA capabilities resulting from an analysis of Law Enforcements requirements expressed in various forms (e.g., Electronic Surveillance Needs for Carrier-Grade Voice over Packet service (CGVoP) and information related to additional Packet Mode technologies.

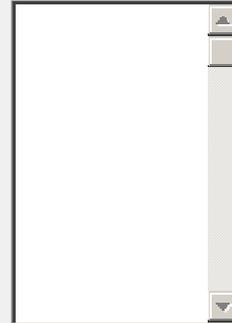

(Note: A copy of the CGVoP document may be obtained by going to <http://www.askcalea.net> and clicking on the link in the lower left corner [“askcalea a question”]. When the dialog box comes up, type a request for a copy of the CGVoP

document.)

*Additional Key Words (*not contained in the title or scope/summary/abstract*)

* **this information must be completed**

Law Enforcement, Collection Function, LAES

Units of Measurement used in this document:

International System of Units (SI) [TIA Preference] Inch/Pound

Both Other Not Measurement Sensitive

[Non-metric requires compliance with Section 4.8 of the TIA Style Manual]
