Subject: SA3 LI would like to advise SA3 on the use of the ANP acronym by 3GPP SA3 LI.

Dear SA3 Members

The 3GPP SA3 LI working group uses the term “Access Network Provider” to describe the service provider of the access network. We would therefore like to coin the acronym ANP, as the acronym AN (Access Network) does not provide the true meaning of what we wish to convey.

Please advise

Regards
Brye Bonner
