To: Steve Barclay
Subject: Nomination for Ed Ehrlich

Greetings

This letter submits the name of Ed Ehrlich, Director - Wireless Standards, Nokia Americas Standards for the position of Vice Chair in the Terminals Technical Specification Group. Ed will be supported by Nokia in terms the necessary resources to properly support the significant effort required to execute this job in 3GPP.

Ed is well recognized in various national and international standards arenas. He has been active in standards activities for a number of years through participation in T1E1, and T1P1 where is currently chair of T1P1.5. Ed has been very active in the ITU-R TG8/1 during the development of the recommendations for the IMT-2000. Ed has also participated in ETSI SMG, representing T1P1.

Ed's broad experience in GSM related standards within the US and European processes, in combination with his extensive radio experience in the ITU, makes him uniquely qualified to provide the support necessary to help the Terminals TSG off to a successful beginning.

Sincerely,

Christopher J. Wallace
