TSG-SA WG4 (SA4) would like to thank CN1 and T2 on the above referred LSs. As the inclusion of UMTS_AMR_2 in R99 affects the R99 dual mode UMTS & GSM terminals (not the single mode UMTS terminals), it is important that all working groups take action as soon as possible to update their specifications.

SA4 has approved (at SA4#19 on 3-7 December 2001) a CR on the inclusion of UMTS_AMR_2 codec type in the Codec List specification TS 26.103 (R99), as requested by CN1 and T2. The CR will be presented for approval at TSG-SA#14.

No necessary changes have been identified for other TSs under SA4 responsibility (e.g., TSs 26.071 and 26.093) but the issue is still under consideration.

Date of Next TSG SA4 Meetings:

SA4 #20   18th – 22nd February 2002

SA4 #21   20th – 24th May 2002
