1. Overall Description:

RAN4 would like to thank T1 for their LS on "test case for UE phase discontinuity" in document T1-030355.

RAN4 Action: T1 kindly asked RAN4 to decide if the minimum requirement of UE phase discontinuity could be considered release independent.

Decision: RAN4 would like to inform T1 on the decision that the minimum requirement of UE phase discontinuity should not be considered release independent. Therefore, the test case should be aligned with the core specification 25.101 Rel-5 and included in the Rel-5 test specification.

2. Actions:

None

3. Dates of RAN WG4 Meetings:

R4 #28 18th – 22nd August 2003, Sophia Antipolis, France
R4 #29 19th – 23rd November 2003, San Diego, USA
