1. Overall Description:

3GPP WG SA2 would like to thank 3GPP TSG T for their LS informing 3GPP WG SA2 of the CR on harmonization of the ISIM for 3GPP2.

3GPP WG SA2 would like to inform 3GPP TSG T and 3GPP WG T3 that the P-CSCF file is not necessary for access to the IMS via a WLAN interworking to a 3GPP network. For this case the use of DHCP is assumed. Hence, the text in 31.103 will need to be modified along the lines of the following:

“This EF does not apply for 3GPP and shall not be used by a terminal using a 3GPP access network or a 3GPP Interworking WLAN”.

2. Actions

To 3GPP TSG T and WG T3:

SA2 asks T3 to modify TS 31.103 to reflect that a terminal accessing IMS via a WLAN interworking to a 3GPP network does not use the P-CSCF file.

3. Date of Next SA2 Meetings:
