Re: SCP-REQ Tdoc SCPPr040042

Dear Mr. Vedder;

3GPP2 TSG-C is currently revising the CDMA Card Application Toolkit (CCAT, C.P0035-A) specification. One aspect of this revision is to enable support for MEID (mobile equipment identifier) provisioned CDMA mobile stations. Please consider the attached CR describing modifications to terminal identity related information as a means to achieve harmonization between CCAT and CAT.

Should you have any questions, please feel free to contact me.

Regards,

Byung K. (BK) Yi
