Subject: Nomination of candidate for the 3GPP TSG CT WG1 Vice Chairman position

Dear Ms. Kooistra and Mr. Firmin,

NEC is pleased to nominate Mr. Yannick Lair as a candidate for the Vice Chairman position of 3GPP TSG CT WG1. Yannick represents NEC Technologies (UK) LTD, ETSI.

Yannick has 12 years' experience in the mobile communications industry. He has held different positions including software engineer, systems engineer, project leader and standardization engineer, with main expertise on Non-Access Stratum and mobile radio layer 3 protocols for GSM, GPRS, UMTS and EPS.

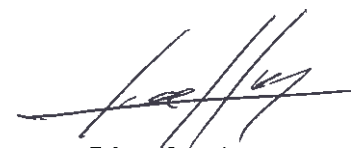

Yannick received an Engineering degree from the "Ecole Nationale Supérieure des Télécommunications de Bretagne", Brest, France, in 1997.

After three years within Alcatel, Yannick joined NEC in 2000, in the newly founded French Mobile Development Centre, as software engineer working on multi-mode GSM / GPRS / UMTS platforms.

Since July 2006, Yannick has been a regular and active attendee of 3GPP TSG CT WG1. He has been leading NEC's delegation and mainly contributing to the specification of SAE and CS fallback. For the latter, Yannick has been acting as Rapporteur for the Work Item and 3GPP TS 29.118. Since June 2008, Yannick has been leading 3GPP Standard activities within NEC Technologies (UK) Ltd.

NEC will fully support Yannick, if elected, in his activities as Vice Chairman, as part of NEC's continued commitment to the success of 3GPP.

Yours sincerely,

Lionel Poisson
Managing Director
NEC Technologies (UK) Ltd.
