Subject : Nomination of candidate for the 3GPP TSG RAN WG 2 Vice Chairman

ST-Ericsson is pleased to announce the nomination of Mr Christian Bergljung as a candidate for the Vice Chairmanship of RAN4. Christian is representing ST-Ericsson, a member of ETSI.

Christian received his M Sc EE and PhD degrees (1994) from Lund Institute of Technology, Sweden. After post-doctoral work he joined the Swedish operator Telia in 1997, subsequently (the Nordic) TeliaSonera, mainly working in the fields of radio access and spectrum engineering. During 2003-2005 he headed the R&D department of TeliaSonera Mobile Networks (Swedish branch) and participated in its management board. His experience in standards work goes back to 1998 starting in ETSI BRAN on 5 GHz WLAN (HiperLAN) and FWA. He has been active in 3GPP since 2003 representing TeliaSonera in RAN4 covering both base-station and UE aspects for WCDMA and LTE; from 2006 he attended GERAN in parallel mainly for the GERAN Evolution work item. Spectrum engineering work included coexistence studies and spectrum estimates for 5 GHz WLAN (802.11 standards) in numerous working groups of CEPT and ITU-R.

Since 2007 he has been working for Ericsson Mobile Platforms, later ST-Ericsson, mainly with standards work continuing as a RAN4 delegate for ST-Ericsson.

ST-Ericsson is fully committed to supporting Christian in his task as a Vice Chairman of 3GPP RAN WG4.

Yours Sincerely

A handwritten signature in blue ink, appearing to read "Lars Wilhelmsson".
