3GPP MCC

attn.: Ms. Susanna Kooistra  
Mr. Maurice Pope

**Subject: Nomination and support for 3GPP SA WG2 Vice-Chairman Candidate**

Dear Susanna, Maurice

On behalf of Samsung Electronics Co., Ltd., member of 3GPP through TTA, it is my pleasure to nominate Mr. Curt Wong as a candidate for the upcoming election of Vice-Chairman of 3GPP TSG SA WG2 during the SA WG2 meeting #108, April, 2015 at San Jose del Cabo, Mexico.

Mr. Curt Wong has been informed of the antitrust and competition laws and that compliance with said laws is therefore required by any participant of the meeting, and he shall comply with such laws while acting in his capacity as a Vice-Chairman.

Curt has been attending 3GPP TSG WA WG2 as a regular delegate since Release 7 and have made many contributions to this working group as a rapporteur of various specifications (i.e., IMS emergency call, Single Radio VCC, SMS without MSISDN, and Group communication over LTE) and as an active contributor to many other features such as CSFB, eMPS, ICS, MTC, LCS, Overload control, etc. Through some of these complex features (e.g., SRVCC, CSFB) which have dependencies with many other 3GPP WGs (e.g., CT1, CT4, CT3, RAN2, RAN3), Curt has acquired a deep understanding of various working methodologies needed to accomplish the work required for each 3GPP release.

Curt has a Master of Science degree in Telecommunications and a BS degree in Electrical Engineering. Curt has over 18 years of experience in the telecommunication industry including the area of R&D, interoperability/field testing, product managements, and new technologies standardizations.

If elected, Curt will provide full support for the SA2 Chairman and be committed to accomplish his duty in 3GPP. Samsung Electronics Co., Ltd. will provide the necessary resources to support Mr. Wong to accomplish his duties and responsibilities.

Sincerely yours,
