ETSI, Mobile Competence Center

Subject: Nomination of candidate for 3GPP WG SA5 Vice Chairman

Dear Ms. Susanna Kooistra, Mr. Mirko Cano Soveri,

On behalf of Huawei Technologies Co., Ltd (CCSA), I am pleased to nominate Ms. Zou Lan as candidate for the position of 3GPP TSG SA Working Group 5 (SA5) vice chairman in the coming election at SA5#126.

Zou Lan has been participating in SA5 work from the beginning of 2006. She actively contributes to many SA5 topics and cooperates with all SA5 participants. She has been rapporteur of 14 work items or study items from Release 8, currently she is the rapporteur of Rel-16 Intent driven management service for mobile network in SA5. She was also nominated as SA5 converged management sub-working group vice chairman in 2013. She is always an active player cooperating with other industry groups and promoted 3GPP on management related topics (e.g. network slicing, network virtualization management, fixed mobile converged network management, Home NodeB management).

Zou Lan joined Huawei Technologies in July 1998. We believe her strong technical background and work experience in the management domain give her the necessary quality to contribute SA5 vice chairman responsibility.

Zou Lan is informed about and aware of the antitrust/competition laws and regulations of relevant jurisdictions, and will comply with such laws while acting in her capacity as 3GPP WG SA5 vice chairman.

Huawei Technologies is committed to allocating the necessary resource and support to enable Ms. Zou Lan to accomplish the duties and responsibilities of this position.

Best Regards,

A handwritten signature in black ink that reads "Wan Lei".

Wan Lei  
Chief standard officer

## Brief Curriculum Vitae for Zou Lan

Zou Lan is the team leader of wireless OSS standard in Huawei. She has more than 20 years' experience in the mobile network management industry, including around 12 years' involvement to network management related standards. She received the 3GPP excellence award in 2017.

### Career History

01/2018-now ETSI ZSM prime delegate, rapporteur of ZSM 003 "end to end network slicing"

04/2008-now 3GPP SA5 prime delegate, rapporteur in SA5 for the following work items or study items:

- Study on Management and Orchestration Architecture of Next Generation Network and Service (Rel-15)
  - Study on Network Management of Virtualized Networks (Rel-13)
  - Study on OAM aspects of Network Sharing (Rel-12)
  - Enhanced Management of UE based network performance measurements (Rel-11)
  - OAM&P for Local IP Access and Selected Internet IP Traffic Offload (Rel-10)
  - IRP Solution Set specification organisation improvements (Rel-10)
  - SON Self-optimization management continuation (Rel-10)
  - Management of UE based network performance measurements (Rel-10)
  - 3G HNB and LTE HeNB OAM&P Type 1 Interface (Rel-9)
  - Enhancement of E-UTRAN Performance Measurements (Rel-9)
  - SON self-optimization management (Rel-9)
  - Study on Self-Organizing Networks (SON) related OAM interfaces for Home NodeB (Rel-9)
  - 3G Home NodeB OAM&P Type 1 Management Interface (Rel-8)
- 2006 – 2008 Huawei wireless OSS standard research team leader
- 2005 – 2006 Huawei WiMAX & IEEE 802.16 standard delegate
- 2005 – 1998 Huawei Technologies wireless network senior engineer

### Publications

2018 Co-authored "Management, Orchestration and Charging in the New Era",  
Journal of ICT

### Personal Details

First and last name Lan Zou  
Nationality Chinese

### Education

1991 – 1995 Diploma of computer science at Xi'an Jiao Tong University, China  
1995 – 1998 Master of computer science at Xi'an Jiao Tong University, China
