Subject: Nomination of candidate for the 3GPP TSG SA5 Chair

Dear Ms. Kooistra and Mr. Soveri,

On behalf of Nokia, I am pleased to nominate Mr. Anatoly Andrianov as a candidate for the position of Vice-Chair of 3GPP TSG SA WG5 in the upcoming election at SA5#150. Anatoly represents Nokia Solutions and Networks GmbH & Co. KG, an ETSI member.

Anatoly brings with him immense years of effective-active contribution in SA5 since its early years and is very well recognised in the industry in the network management area. Anatoly has all the technical, procedural and leadership skills required to conduct all necessary activities as Vice-Chair of SA5, in a fair, neutral, and inclusive manner.

Anatoly is informed about and aware of the antitrust/competition laws and regulations of relevant jurisdictions. If elected, he shall comply with such laws while acting in his capacity as TSG SA WG5 Vice-Chair.

By proposing Anatoly for the position of SA5 Vice-Chair, Nokia remain strongly committed to the 3GPP standardization work. Nokia will provide all necessary support and resources to Anatoly to allow him to fulfil his duties as SA5 Vice-Chair.

Yours sincerely,

Ulrich Dropmann – Head of Standardization & Industry Environment, Nokia

## Brief Curriculum Vitae for Anatoly ANDRIANOV

Mr. Anatoly ANDRIANOV

Senior Standardization Specialist and Distinguished Member of Technical Staff (DMTS) at Nokia.

<https://www.linkedin.com/in/anatolyandrianov/>

Anatoly has over 25 years of experience in the Telecommunications industry covering several aspects including systems engineering, field deployment and optimization, systems performance and virtualization, product architecture, standardization and open-source projects.

Anatoly is passionate about OAM and standardization.

Anatoly is a long-standing delegate to 3GPP SA5, ETSI ISG NFV, ETSI ISG ZSM, GSMA, ONAP and O-RAN Alliance. The rapporteur of several 3GPP and O-RAN specifications. A source of knowledge and a visionary with holistic thinking and perspective.

Anatoly has two Masters degrees (Master of Science in Telecom Electrical Engineering from MTUCI and Master of Science in Telecom Computer Science from DePaul University) and over 60 professional certifications, the most recent ones in Cloud, APIs, AI, ML, Data Science.

Anatoly is O-RAN Alliance WG10 (OAM) Co-chair, active participant in multiple SDOs and open-source projects with focus on topics related to Management and Orchestration.
